**Model : AS-40I-B**  
**Electro/Remote Operated "C-ARM" Compatible**  
**Bariatric Operating Table**

AS-401-B Series is designed to effectively position patients, facilitate easy access and control for either surgical team and ensure patient safety and comfort.

To satisfy surgeon's needs for productivity, ease of use, ease of maintenance, this new model is created to fulfill this mission at the cost attractive price- to -performance ratio.

**Reverse Trendelenburg Position with Split and Down Leg Plates.**

**Features:**

- The Electro/Remote driving mechanism with INBUILT BATTERY BACK UP assures smooth and quiet movement of Table Top.
- Operating positions including Height Adjustment, Trendelenburg /reverse Trendelenburg, Lateral Tilt Both sides , Flex/Reflex and Back section can be controlled quickly and accurately with the help of Light weight corded Hand Control unit/Remote control and Power control panel fitted on column .
- The eccentrically positioned Four Section Powered Table Top is X-Ray Translucent and "C-ARM" Image Intensifier Compatible with Longitudinal sliding displacement / Sliding Table Top.
- Removable and Split Leg Plates allows vertical or horizontal positioning adjustable; Downing/vertical positioning through Pneumatic Gas pump and Split/ Horizontal Positioning through Ratchet mechanism.
- Removable and Adjustable (UP/DOWN through Ratchet) Head Section.
- Specially Designed Extension Plates with Side Rails to increase width of Table for Bariatric Surgery.
- Central Floor Locking Mechanism easily and firmly fix table in place with control of foot pedal.
- "T" Shaped Heavy and Sturdy Table Base Facilitates easy surgical team access and table stability.
- Easy swivel castors provide good mobility .
- Unique Floor Lock system provided either side of Table Base to increase weight bearing capacity & Firm Stability in Reverse Trendelenburg Position.
- Table Top Frame, Base Cover, Column Covers , Side Rails, All accessories & Clamps are made of Rust Free 304 Grade Stainless Steel for easy cleaning and Hygiene.
- High Density PU Foam Mattress with 50 mm Thickness covered with waterproof Special Rexene Easy to clean.
- Exclusive Foot Rest Plates with Extension Rail to Ensure Patient comfort , Stability and "NO Compression" at Ankle/Heel .
- Innovative Thigh Belts to Hold Patient During Long Surgery with "NO Compression".

**Pictured with Exclusive Foot Rest Plates & Innovative Thigh Belts for Extra Patient comfort, Safety and Ease of Operating Staff.**

### Technical Specifications :

• Table Top Length	: 2000 mm.
• Table Width Without Side Rails	: 560 mm.
• Extension Plates Width	: 50mm each side.
• Table Top Height Without Mattress	: 600 mm Minimum Height; with 150mm to 300 mm Lift Height Elevation Customizable.
• Reverse Trendelenburg Position	: 40° to 50°
• Trendelenburg Position	: 40° to 50°
• Lateral Tilt (L/R)	: 21°/21°
• Flex/Reflux	: 220° / 90°
• Head Rest UP/DOWN	: 90°/90°
• Back Rest UP/Down	: 80° / 35°
• Leg Plates (UP/Down) & Horizontal Positioning	: 0°/90° , Horizontal 0° – 140°
• Table Top Longitudinal Slide (TO Head , To Leg)	: 250 mm.
• Maximum Weight Capacity	: 350 Kgs.

**Optional : Available with Manual Override (In case of Remote/Panel/Controller Failure) through Position Select switch System for use During Non Bariatric Surgeries only. Model: AS-401-B-MO.**

**Standard Accessories:**

- Foot Rest Plates with Extension Rails : 1 Pair.
- Padded Thigh Belt with Clamp and Height Adjustable Rod : 1 Pair.
- Padded Chest Belt/strap with Holding Bars and Clamps : 1 Pair.
- Padded Lithotomy Crutches : 1 Pair.
- Padded Arm Rest Board : 1 Pair.
- Padded Shoulder Supports : 1 Pair.
- Padded Side /Lateral Supports : 1 Pair.
- "L" Shaped Anaesthetic Screen : 1 Pc.
- Mattress Set : 1 Set.

"C-ARM" Image Intensifier Compatible Longitudinal sliding displacement / Sliding Table Top.

Equipped with Adjustable Side Supports, Shoulder Supports, Patient Holding Straps Holders, Thigh Belts, Foot Supports and Width Extension Plates with Side Rails and Clamps.

Both Side Lateral Tilt Position.

Flex/Reflux / Kidney Elevation Position.

Trendelenburg Position along with Longitudinal Sliding Table Top Towards Head Side.

Elevated Back Rest/ Chair Position with Split and Down Legs.

**Model : AS-40I-H**

**Motorized /Electro/Remote Operated Operating Table For Minimal Invasive Hair Transplantation Surgical Procedures**

- The Table Manufactured and Developed Exclusively for Hair Transplantation Surgical Procedures is very Stable and Versatile. Its Ergonomic design ensures both surgeon and Patient Comfort.
- The Electro/Remote driving mechanism with INBUILT BATTERY BACK UP assures smooth and quiet movement of Table Top.
- Operating positions including Height Adjustment, Trendelenburg /reverse Trendelenburg, Flex/Reflex and Back section can be controlled quickly and accurately with the help of Light weight corded Hand Control unit/Remote control.
- The Table Has a Maximum Height of 865 mm (Customizable) and Minimum height of 600 mm ; Ideal for standing or sitting working position.
- Design of Head section give easy access to the patient, whilst allowing Leg Room and Space for the equipment pedals.
- The Adjustable cushioned head rest ensures patient comfort and restraint during operations.
- Central Floor Locking Mechanism easily and firmly fix table in place with control of foot pedal.
- Easy swivel castors provide good mobility.
- Patient comfort is assured with deep antistatic PU foam mattress/cushions which are easy to clean.
- Trendelenburg (Head low Position ) and reverse Trendelenburg facility ensures safety during emergencies.
- Leg Section Detachable and Adjustable to ensure more space in Operating Room.
- Table Top Frame, Base Cover, Column Covers , Side Rails, All accessories & Clamps are made of Rust Free 304 Grade Stainless Steel for easy cleaning and Hygiene.

**Standard Accessories :**

- "L" Shaped Anesthetic Frame : 1 Pc.
- Padded Shoulder Support : 1 Pair
- Padded Arm Board : 1 Pair
- Padded Lateral Support : 1 Pair
- Set of Mattress 50 mm thickness : 1 Set

**Optional:**

- **Available with Manual Override (In case of Remote/Panel/Controller Failure) through Position Select switch System.**

**Model:AS-401-H-MO**

- **Available with Power Control Panel Fitted on column Along with Manual Override.**

**Model:AS-401-H-MO-P**

**Technical Specifications :**

• Table Top Length	: 1900 mm.
• Table Width Without Side Rails	: 560 mm.
• Top Height Without Mattress	: 600 mm Minimum Height; with 150mm to 300 mm Lift Height Elevation Customizable.
• Reverse Trendelenburg Position	: 40° to 50°
• Trendelenburg Position	: 40° to 50°
• Head Rest UP/DOWN	: 90°/ 90°
• Back Rest UP/Down	: 80° / 35°
• Leg Plate / Leg Section (UP/Down)	: 0° / 90°
• Maximum Weight Capacity	: 250 Kgs.

**Model : AS-40I-A**

**Electro/Remote Operated "C-ARM" Compatible Operating Table With Sliding Tabletop, Mechanical/Manual Override & Column Panel.**

AS-401-A Series is designed to Satisfy surgeon s needs to overcome hassles occurs during latest operative medical Ambit. This new model is created to fulfill this mission at the cost attractive price-to-performance ratio.

- The Electro/Remote driving mechanism with INBUILT BATTERY BACK UP assures smooth and quiet movement of Table Top.
- Operating positions including Height Adjustment, Trendelenburg /reverse Trendelenburg, Lateral Tilt Both sides , Flex/Reflex and Back section can be controlled quickly & accurately with the help of Light weight corded Hand Control unit/Remote control and Power control panel fitted on column.
- Mechanical/Manual Override (In case of Remote /Panel/controller Failure) through Position Select Switch system.
- The eccentrically positioned Four Section Powered Table Top is X-Ray Translucent and "C-ARM" Image Intensifier Compatible with 250 mm of Longitudinal Sliding Displacement and Streamlined Radiolucent Tabletop Provide easy "C-Arm" access & complete Maximum Patient's full Body Image Amplification coverage without moving the patient.
- Removable and Split Leg Plates allows vertical or horizontal positioning adjustable; Downing/vertical positioning through Pneumatic Gas pump & Split/ Horizontal Positioning through Ratchet mechanism.
